Magic Bank Instructions

1. Put 2 AA Batteries in battery well located in the base. Follow diagram in the well for positions.
2. To operate: Simply place a coin in the slot at the top of the box. Press gently on the coin until the motor starts. The box will start shaking and slowly the Hand will reach out and grab the coin.
3. To remove the coins simply lift the lid and hold the lid open, turn the box over and shake the coins out. If the box has too many coins in it the lid will not shut. Please do not force the lid, remove extra coins till the lid can close.
