WIND UP ALARM CLOCK INSTRUCTIONS

TO SET TIME: Set hands to correct time. Only turn Time Set Knob in the direction of the arrow = counter clockwise.

TO SET ALARM: Set red alarm hand by turning Alarm Set Knob in the direction of the arrow = clockwise. Wind up the Alarm by turning Alarm wind up key in the direction of the arrow = counter clockwise. If alarm is not wound up, it will not ring! Move the handle on the top of the alarm to the right so the bell can ring.

TO STOP ALARM: Move the handle on the top of the clock to the left. This will keep the alarm from ringing.

TO REGULATE TIME: This clock has been adjusted at the factory. If the clock runs fast move lever in crescent shaped hole toward "-". If the clock runs slow, move the lever toward "+". Move the lever only a little to adjust

CLEANING OF FACE: Use soft cloth moistened with warm water and mild soap. Do not use cleaning fluids or detergent.
